

# Data Privacy Management Platform

Compliance doesn't have to be complex. The Osano Data Privacy Management Platform supports, streamlines, and automates compliance in your organization—without the stress.

Osano helps organizations navigate the complex privacy ecosystem with finesse, giving teams the visibility and insights to take control over their privacy program and operations. With regulatory updates and expert guidance, privacy professionals can streamline compliance across jurisdictions and automate critical processes.

This enables teams to prioritize strategic work, lighten privacy burdens across departments, and foster a proactive, privacy-forward culture within their organizations. Osano's scalable solutions support a comprehensive approach to managing consent, data governance, rights fulfillment, and privacy risk monitoring, ensuring a robust privacy posture throughout the data lifecycle.

## Transform data privacy complexity into actionable clarity with Osano's Data Privacy Management Platform:

- Cookie Consent**  
Manage consent for data privacy laws in 50+ countries
- Unified Consent & Preference Hub**  
Manage consents and preferences across touchpoints
- Subject Rights Management**  
Automate your subject rights workflow

- Data Mapping**  
Automate and visualize data store discovery and classification
- Assessments**  
Centralize and streamline all your privacy assessments
- Vendor Privacy Risk Management**  
Ensure your customers' data is in good hands

### Say goodbye to:

- ➔ Being swamped by data privacy complexity
- ➔ Solution overload draining productivity and increasing risk
- ➔ A lack of company buy-in and being the department of "No"
- ➔ Perceptual problems and customer distrust
- ➔ Costly and time-consuming maintenance requirements

“The Osano team is very knowledgeable, helpful, and accessible. I know I can expect a thoughtful and prompt response to all my questions. The platform is intuitive, easy to implement, and enables us to holistically monitor privacy compliance. We really could not be happier.

— Ivanna C, G2 Review

### With Osano, You Gain:

#### A Platform Purpose-Built for Privacy

Our platform is meticulously crafted to support the intricate tasks and responsibilities privacy professionals encounter daily.

#### Global Compliance Simplified

Our platform provides coverage for privacy compliance across more than 50 countries, delivering a truly global solution with localized rights and user experience.

#### Risk Mitigation

Ensure consistency in data handling and processes with standardized practices and centralized controls within Osano, reducing the risk of errors and non-compliance.

#### Cost Efficiency

By consolidating multiple point solutions into one integrated platform, Osano slashes the time and expense of managing disparate privacy tools.

#### Rapid Deployment

Tailored implementation services from our experts get users up and running in just a few weeks, even with our most sophisticated modules.

#### Flexibility and Scalability

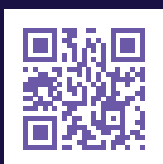

Crafted in a singular architecture, our platform can easily adapt to the latest privacy demands and technological shifts without losing interconnectivity or cohesion.

#### A Holistic Experience

Osano's product is designed to be cohesive and integrated from the start, providing an organic, uninterrupted user experience.

#### A Partner With B-Corp Values

Our mission-driven approach ensures that you're not just choosing advanced technology but also a partner committed to making a positive impact.
